

# THE IVF SHIPPING SPECIALISTS YOU CAN TRUST

The IVF process can be challenging, and the last thing you need to worry about is the shipping of your embryos, eggs and sperm. That's why it's our top priority to ensure your materials are handled with meticulous care from clinic to clinic, safely and securely.

Cryoport is proud to provide you and your family our CryoStork® services for the safe shipping of your precious materials. Through our scientifically enhanced technology and unparalleled logistics expertise, Cryoport delivers the fastest and most reliable IVF shipping. We proudly provide dedicated customer service and nonstop shipment monitoring 24/7/365 to give you complete peace of mind.

Our team understands how precious your shipment is and will be with you every step of the way.

### CRYOPORT INSURANCE

We offer exclusive insurance options for the transportation of your precious materials. The insurance coverage provides families additional peace of mind, extra protection and a financial safety net during your IVF journey.

# WHY CHOOSE CRYOPORT?

## SCIENCE

Cryoport's scientifically enhanced technology and equipment provide secure and reliable shipping.

## LOGISTICS

Our dedicated customer service team proactively monitors each shipment with our advanced technology, allowing for intervention if necessary.

## CERTAINTY

With over 10 years of IVF shipping experience, we have transported more than 400,000 shipments around the world.

## GLOBAL FOOTPRINT

Cryoport proudly serves over 150 countries with 29 facilities around the world.

## VERI-CLEAN® - VALIDATED CLEANING

Our proprietary cleaning process for our shippers and stainless-steel accessories utilizes a multi-purpose reagent effective against bacteria, fungi and viruses. Veri-Clean® reduces external contaminants by 99.9999%.

## END-TO-END SOLUTION

Our seamless coordination with the origin and destination clinics help make your experience trouble free. Our team verifies all contact information, addresses and shipping details. We arrange the pick up and shipping dates to align with procedure dates and lab staff availability.

When it can't be replaced,
